- She is very nice and approachable.
- Amazing TA!!! Super helpful at explaining the content in recitation, answers emails super fast, really wants to stimulate student understanding, has an interesting life story...
- Super friendly, knowledgeable and approachable.
- Belen is super sweet. It was a bit aggravating going to office hours because she would try so hard to explain how to go about the homework without giving the answers to the problem sets, which led to her explanations being a bit vague. However, she clearly knows the material and is super patient with confused students like me to try and explain something to the best of her ability.
- She was great!
- Belen was great! I regularly attend her recitations and office hours and I find she is extremely effective in helping students translate what we learned in class to actual questions we might face. She is super patient and knowledgeable, and I know that has helped so many students actually understand the subject matter.
- Belen was an amazing TA! She was so helpful and had great availability to walk us through the content learned in lecture. She was kind, patient, and her recitations were always insightful.
